

### *ERASMUS+ project*

#### *“English in Modern Times of Fluid Change”*

Escape Rooms are a collaborative learning game in which students work in teams to solve a series of puzzles, collect codes or keys, and somehow compile their information to “escape” the scenario. They can be as simple or complex, it depends on the topic.

An escape room is an exciting and adventurous game in which participants are “locked” into a themed room with their team, and they must solve riddles, puzzles, and clues in order to find their way out of the room before the time runs out.

Escape rooms promote collaborative learning and peer-to-peer learning and make students to cooperate to solve the task. They are great fun to do and make learning English more interesting.

*To escape the classroom you need the key with the correct number.*

*What number?*

*You will find it out doing four missions step by step.*

*Every envelope has its own number.*

*If you're lost, ask your teacher for help.*

**GOOD LUCK!**

***Let's find the 1<sup>st</sup> envelope.***

*Hint: time is running out...*
