

## ERASMUS+ project

### “English in Modern Times of Fluid Change”

## In search of colleagues - we discover Osjaków

1. Our two students have disappeared. In the place where they always sit, we found a letter that they will come back to us when we guess the password. But to do that, you must first solve puzzles located at different points in Osjaków. You will receive 1 letter for each correct solution.
2. The game starts at 1.30 pm in Maths classroom. You will be divided into 3 groups. Each group will receive an answer card and an envelope for collecting letters. The group's first task is to design the group's logo on the answer card.
3. After each team has a name and logo and the last explanations, we start the game. You will receive instructions on how to get to each place, once you reach the indicated point, you will have a task to do, for which you will receive a letter. There will be coordinators at each point to help if necessary.
4. We hope you will help us free our colleagues. Ready - let's start!
5. Congratulations! You helped us save our colleagues and that's why rewards await you for completing this task. Thank you for having a great time!
